

Press Release

The One-Stop Business Facilitation Centre (OBFC) of the Ministry of Trade and Industry, Cooperatives and Marketing will hold a one-day workshop for Business Community and other relevant stakeholders on Tuesday, 18th June 2013 commencing at 9:00am at Lehakoe Recreational Centre.

The workshop whose theme will be the re-registration of companies is aimed at sensitizing companies registered with the OBFC to undergo the re-registration process. The process will help OBFC in updating its record of companies registered with it. The re-registration of companies came about after the OBFC realized that there are companies registered with the Ministry since 1967 some of which are no more in existence.

Some of the issues to be highlighted in the workshop include upcoming reforms, the achievements of the OBFC to-date and challenges thereof.

OBFC is a centre under the Ministry of Trade and Industry, Cooperatives and Marketing mandated with registering companies under the Companies' Act No. 18 of 2011.
